# A STATEMENT OF ADVERTISING PRINCIPLES

1. Good Advertising ~ aims to inform the consumer and help him to buy more intelligently.
2. Good Advertising ~ tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.
3. Good Advertising ~ conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
4. Good Advertising ~ recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

# INTRODUCTION AND GENERAL INDEX

---

HILL DIRECTORY COMPANY, publishers of Southeastern Directories (publishers of the Smithfield and Selma Directory since 1957), present to subscribers and the general public, this, the 1969 edition of the Smithfield and Selma City Directory, which also includes Pine Acres, Sandy Run Section, Sunrise Acres, and West Smithfield. (In all, the HILL DIRECTORY COMPANY and its affiliated companies publish more than 1,400 city, county, state and national Directories).

Confidence in the growth of Smithfield and Selma's industry, population and wealth, and in the advancement of their civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Smithfield and Selma to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and the Smithfield and Selma Directory will fulfill its mission as a source of authentic information pertaining to the communities.

## Five Major Departments

The five major departments are arranged in the following order:—

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business section, which embraces a list of the names and addresses of all business and professional concerns of the communities, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the communities. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In busy and diversified communities like Smithfield and Selma, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the

name, marital status, occupation and address of each adult resident of Smithfield and Selma, and the name, official personnel, nature and address of each firm and corporation in the communities.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner occupied homes, the listing of telephone numbers and Zip Code numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

V. THE SMITHFIELD AND SELMA RURAL ROUTES DIRECTORY is the fifth major department, printed on white paper.

### Municipal Publicity

The Directory reflects the achievements and ambitions of the communities, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Smithfield, Selma and vicinity.

### The Directory Library

Through the courtesy of the publishers of the Smithfield and Selma City Directory, a Directory Library is maintained in the offices of the Smithfield and Selma Chambers of Commerce, for free reference by the general public. This is one of more than 1,000 Directory Libraries installed in cities and towns throughout the United States, Canada and Puerto Rico by members of the Association of North American Directory Publishers.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

### General Review

Oldest, largest and busiest of Johnston's ten towns, Smithfield is the county seat with an estimate of 7,000 population. In 1890, it was only 545. Once it was a river town, and the Neuse still flows slowly along the west edge of its business section, but its commercial importance now is the potential it has as a source of industrial water. Smithfield's water facilities are adequate for an anticipated growth of 20 years.

Downtown Smithfield spreads east of the courthouse lawn, and is a mixture of retail stores, farm equipment places and tobacco warehouses. Tobacco is still a big thing in the life of the average Smithfield citizen. When the nine auction warehouses sell some 30,000,000 pounds, they turn loose \$12 to \$15 million, and a good part of it goes to Smithfield—either directly into the pockets of absentee farmers living in town, or indirectly via farm trade.

Tobacco is, however, an old story to Smithfield. In 1770, the legislature established a public "Inspection of Tobacco" in Johnston at the ferry on the lands of John Smith. Here tobacco was inspected, and put in stamped hogsheads. It was floated down to New Bern in flatboats. Consequently, Smithfield is the oldest tobacco market in North Carolina, still in business, allowing, of course, for interims of inactivity.

The modern auction market opened in 1898 via a warehouse operated by Skinner and Barham.

The redrying houses, also operating seasonally, provide one of the largest sources of employment in the county, aside from agricultural pursuits.

The cotton market, though overshadowed, is one of the largest in the state, with three gins and facilities for storing 18,000 bales. There is a large livestock market.

But industrial additions such as Burlington Mills, the Jerold Corporation, Fieldcrest Mills, Carolina Packers, Sylvania Electric Products, Shallco, Inc., AMS, Inc., and others are broadening the base of the town's economy, as well as providing a better balance between agricultural and industrial pursuits.

Smithfield's strategic location at the intersection of the main North-South Routes (I-95 and U. S. 301) and East-West (U. S. 70), plus the Seaboard-Coastline Railroad and the Neuse River makes it an ideal location for industry. The availability of labor as well as adequate plant sites bodes well for its continued industrial growth.

Smithfield's business and civic leaders, as the result of a tour of several states viewing community improvement ideas, with full co-operation on the community level, unfolded "The Smithfield Plan." Through coordination of community and civic efforts many changes have taken place. These include sidewalk canopies, remodeled businesses, color styling, off-street parking, new store fronts, landscaping—more than 25 projects completed and others in the planning stage. As the result, Smithfield was chosen and judged fourth in the nation in the 1962-

further on community improvement, Smithfield now has a wide-awake, on-the-move look, and has established itself as a most progressive community.

In all of its long career, and through every turn in business, the town has never suffered a bank failure. It is one of the financial centers of North Carolina, through the presence of main offices of the First Citizens Bank & Trust Company.

The town was founded on land which John Smith, the first settler, donated. He had moved in from Virginia and obtained a license to operate a tavern at the site in 1765. Later he moved to Tennessee, where he died.

Smithfield was chartered in 1777, and must have had some facilities and prestige during the Revolution. The General Assembly was to have convened in New Bern in April 1779, but a smallpox epidemic forced them to meet elsewhere, and they chose Smithfield.

It was at this session that the representatives made the first attempt to halt the nomadic wandering which had the assembly meeting first in one place and then another. A resolution was introduced naming a commission to "view and fix upon some place in each of the counties of Johnston, Wake and Chatham for holding the General Assembly."

Nothing came of this, and the resolution may not even have passed, for the Senate Journal of that session is lost.

However, when a capital site finally was picked, Smithfield was in the running. We frequently hear the town lost by only one vote, but the statement is always prefixed by the warning that it is only a legend.

Also, according to legend, a Smithfield man cast the deciding vote against location of the Southern Railway, fearing that the smoke and noise would be injurious to the quiet of the village. It later obtained the Atlantic Coastline Railroad, which has since merged with Seaboard to become Seaboard Coastline Railroad.

Beyond the commercial center lies the residential sections, mostly composed of comfortable but moderate homes.

They are built along old tree-lined streets, and even though close to town have an air of leisure and well-being. Smithfield, for all its concern over the replacement of farm labor and the need for new enterprises, is a town of quiet poise. It has over its 200 years, gradually equipped itself adequately.

As the result of combined community efforts, necessary funds for a new Smithfield-Johnston County Library were raised. Now a new \$500,000 library is in operation.

The relatively new hospital has already been enlarged and renovated, with all modern convenience being included in addition to increasing the number of beds to 200.

The civic life is well balanced by organizations—civic, fraternal, cultural, literary, dramatic and professional. It has the city-county library and also is a headquarters for a seven branch county library system with bookmobile. A Historical Society is busy compiling a county history. There are 26 churches and 4 recreation parks, operated by a full-time city recreation department.

Smithfield's growth in size and responsibility has not robbed it of a social life which is as friendly and neighborly as that of the smallest rural community in the county.

### Community Attitude

Business and professional leaders and the people of Selma and Johnston County are vitally interested in industrial development toward

Tobacco ready for harvest

the welfare of the area. Facing the importance of further industrialization, leading citizens of Selma and the area formed the Selma-Smithfield Industrial Development Corporation.

City, County and State governments have demonstrated a wholesome and cooperative attitude toward old and new industry and business organizations. New industries that have come to the town and area in the past few years have found splendid community attitude and able, industrious labor. The community has several desirable sites available for industry and will meet reasonable requirements to serve new industry and provide new floor space on a sound business basis.

Within a radius of 20 air miles there is a labor pool in excess of 3,600. Approximately 1,000 high school graduates enter this labor force annually. Selma is served by the Seaboard Coast Line Railroad and Southern Railway and by 6 Trucking Lines. Raleigh-Durham Airport, one of the South's leading is only 40 miles away. Valuations and tax rates are reasonable and city utilities are available.

The Chamber of Commerce, with the cooperation of town government and civic clubs, has started a concerted effort to get downtown business organizations to improve their properties, both inside and out. This is, of course, a long range program; however, it is being met with enthusiasm.

Selma Chamber of Commerce offers its services without obligation. All inquiries are handled in strict confidence. For further information, please write the Selma Chamber of Commerce, Box 584, Selma, North Carolina, or telephone 965-5356.

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

# PLEASE! Do Not Lend Your CITY DIRECTORY

## IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

*"PROGRESS UNLIMITED"*

## SELMA IS STRATEGICALLY LOCATED

- Just 35 Minutes From Raleigh, The State Capital
- Within Hour or So of All Units of North Carolina's  
Industry-Serving "Research Triangle"

## IDEAL FOR INDUSTRY

Progressive town government providing up-to-date water, electric and other public services. Served by Southern and A.C.L. Main Line Railroad. Near Raleigh-Durham Airport, Intersection of Major Highway arteries (U. S. 301, U. S. 70 and Interstate 95). Served by leading truck lines. Productive labor supply vouched for by industries already established. Friendly atmosphere for industry and its executive personnel. Selma is the Eastern spur for the Colonial Pipeline Co., serving eastern N. C. with all types of petroleum products.

## IDEAL FOR LIVING

Excellent schools and churches, fine Civic Club and cultural advantages. Beautiful lake, good fishing, community recreation parks. Friendly residential neighborhoods. Modern 156 bed hospital and these added advantages. Selma is close to major centers of government. Business, culture and recreation, near nationally prominent colleges and universities, near state capital. Six hours by highway from Washington, D. C., 500 miles from New York, two hours from ocean resorts, five hours from famous Blue Ridge Parkway in western North Carolina Mountains.

## IDEAL FOR BUSINESS

Selma is in center of county which produces crops and livestock valued annually in excess of \$10 million. The Selma area is in the midst of an industrial boom with two multi-million dollar Electronic Plants in the Selma township and large expansion forecast in the near future by other Selma manufacturers.

STREET and AVENUE GUIDE  
INCLUDING

TELEPHONE NUMBERS, HOME OWNER SYMBOLS  
and ZIP CODES

# 1969

Including Pine Acres, Sandy Run Section, Sunrise Acres  
and West Smithfield

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Zip Code numbers are shown immediately following each street description. If a street runs through more than one zone, the new Zip Code number is shown immediately preceding the lowest street number in the new zone.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.

This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.
